18	<i>City WHT</i>	Don Stevens	Oct-2027

\*Appointed by the board of directors for a one-year term.

CHAIRMAN TO READ  
AT BEGINNING OF EACH BOARD MEETING

Endorsed at the March 10, 2003 Board of Directors Meeting  
Recommended by the Conflict of Interest/Ethics Committee

PWSAC BYLAWS  
Article I – Board of Directors

**Section K – Conflict of Interest** (page 4)

No director may vote upon any matter in which he has an adverse or personal interest, unless such interest has been fully disclosed to the Board of Directors and the Board of Directors, by majority of vote without the interested Director voting, permits such interested Director to vote. A common directorship does not alone constitute a material financial interest within the meaning of this section. Ownership of a limited entry permit by a Director holding a limited entry permit seat on the Board of Directors shall not alone be considered a conflict of interest. Each Director shall promptly disclose any adverse or personal interest in any matter. If a Director has a potential conflict of interest on any matter, the immediate knowledge of which by him or her could have an adverse effect upon the finances of the Corporation, that Director shall be excluded from any meeting or portion of a meeting at which the matter is considered by the Board of Directors.

# Prince William Sound Aquaculture Corporation

Board of Directors – Fall Meeting  
October 9 & 10, 2025 – 9:00 AM  
Cordova Center Room A and B & Zoom online

## UNAPPROVED MINUTES

---

### Call to Order

The Board Chairman Eli Johnson called the meeting to order at 9:01 AM.

### Roll Call

Wade Buscher	Eli Johnson	Justin Ryan
Nicholas Crump	Tyee Lohse	Tommy Sheridan
Benjamin Daigle	Ian McCallum	Don Stevens
Chris Gordon	Mike Mickelson	John Whissel
Jarek Hanak	Thomas Nelson	Morgan Williams
Hayley Hoover	Jon Nichols	Shawna Williams
Deana Irish	John Platt	

QUORUM REACHED

Late: Darin Gilman (9:16 AM), Regan Mann (9:05 AM)

Absent: Amanda Bauer, Ben Behan, Ron Blake, Scott Blake, Bret Bradford, Makena O'Toole, P. Timmy Selanoff, Nathan Cook

Potential appointments present: Douglas Carroll, James Burton, Toni Godes, Dan Miotke, Ken Roberson, Nathan Tueller, Gus Cotten

### Approval of Agenda

**MOTION J. WHISSEL; SECOND N. CRUMP** move to approve the October 9 & 10, General Board meeting agenda.

Amendments: Corrections made to page 2 and page 10.

MOTION PASSED with unanimous consent as amended.

### Introduction of Staff

General Manager Geoff Clark, introduced staff:

Steve Hilton	Mike Anderson
Neil Wright	Rob Tornatore
Margie Udani-Calaustro	Alex Romero
Kristeen Rine	Jason Myhrer
Amber Phillips	Armando Alvarez
Rebecca Ronkar	Kat Johnson

### Introduction of Guests

Chairman Johnson introduced meeting guests Nicholas Stoudt of Porter & Allison Inc. and Matt Findley and Dylan Hitchcock-Lopez of Ashburn & Mason.

### Appointment of Representative Directors

Chairman Johnson announced that Whittier Seafoods still has one year left in their three-year term, but they have not purchased fish for the last two years. He asked the board to discuss their seat on the board.

Discussion: Whittier Seafoods was purchased by Great Whittier LLC. The Board had no objections to allowing Whittier Seafoods' seat to roll over to their buyer, who want to keep Deana Irish as their representative.

**MOTION S. WILLIAMS; SECOND J. NICHOLS** move to approve the appointment of Ken Roberson and Millie Johnson.

MOTION PASSED with unanimous consent.

### **Appointment of Fishermen Directors for One-Year Terms**

**MOTION T. LOHSE; SECOND S. WILLIAMS** move to approve the appointment of Forest Jenkins to Gillnet Seat I, Toni Godes to Gillnet Seat J, Morgan Jones to Seine Seat B, Dan Miotke to Seine Seat I, Nathan Tueller to Seine Seat J, Douglas Carroll to Dual Permit Seat E, James Burton to Dual Permit Seat F, and Gus Cotton to Dual Permit Seat F.

MOTION PASSED with unanimous consent.

### **Welcome New/Re-elected Board Members**

Chairman Johnson welcomed the following duly elected board members: Benjamin Daigle, Eli Johnson, Reiker Durtschi, Ben Behan.

### **Review Conflict of Interest Statement & Disclose Conflicts of Interest**

Chairman Johnson read aloud the conflict-of-interest statement and reminded the board directors to disclose any conflicts of interest before a vote.

### **PWSAC Director's Oath**

Chairman Johnson reminded the board to sign and return their directors oaths if they do not have one on record with PWSAC staff.

### **Approval of Meeting Minutes**

**MOTION T. LOHSE; SECOND S. WILLIAMS** move to approve the March 18 & 19, General Board meeting minutes.

Amendments: A word change on page two and a correction on page ten.

MOTION PASSED with unanimous consent as amended.

### **Public Comment**

Audrey Welsh, Jeremy Botz, Rick Isaacson, Rachel Ertz were in attendance, but none spoke during the public comments portion of the meeting.

### **Correspondence**

None

### **Guest Presentation**

Nicholas Stoudt of Porter & Allison reviewed the financial audit for the board.

### **Executive Session**

**MOTION S. WILLIAMS; SECOND J. RYAN** move to go into executive session to discuss matters the immediate knowledge of which would have an adverse effect on the finances of the corporation.

MOTION PASSED with unanimous consent.

Break at 9:45 AM for executive session

Back on the record at 10:47 AM.

No business took place while in executive session.

### **Chairman's Report**

Chairman Eli Johnson shared the board's work over the last six months, covering the RPT meeting in April and going into the work done by the Executive Committee. He addressed PWSAC's financial status and the cost recovery operation that year, reminding the board of PWSAC's constant effort to provide efficient salmon enhancement.

### **Representative's Report**

Nicholas Crump presented a summary of the September RCAC meeting.

### **Management Reports**

**General Manager's Report:** Geoff Clark presented on the following:

- Challenges of 2025 season
- Cost Recovery
- Brood stock collection
- Capital Projects
  - WNH Incubator Room Leak
  - WNH Hydro turbine Refurbishment
  - Fuel upgrades scheduled for MBH and WNH
- PWSAC Salmon Returns
  - What factors PWSAC controls and the data they return.
  - The factors that are unknown and that PWSAC does not control

Discussion: The board discussed how to potentially change Main Bay Hatchery's brood source with affecting production. They also discussed looking into research on the ocean survival of salmon. The Board proposed releasing outgoing fish off site of the hatchery to avoid marine predation, with the intent that the released fish would still be imprinted, and therefore return to, the hatchery water. This release method would not address marine survival during the salmon's development before returning; therefore, pink salmon would reveal the most results from a test, given they are in the ocean for one year before returning. The Board discussed the difference in the marine survival of west side and east side wild salmon stocks and what conditions are ideal for the fry and smolts to survive after release.

Break for Lunch at 12:07 PM.

Back at 1:03 PM

**Production Report:** Steve Hilton presented a production update and answered the Board's questions.

Discussion: The Board discussed the IHN vaccination project at Main Bay Hatchery. The intent is to reduce the overall level of IHN, which is endemic to most sockeye systems, to lower the level of vertical transmission.

**Finance Report:** Margie Udani-Calaustro presented on the FY 26 and FY 25 budget and answered the Board’s questions.

Discussion: Construction for the CCH dam project is scheduled for FY 28. Geoff Clark addressed some in-season capital project additions.

**Human Resources Report:** Kerin Kramer presented a Human Resources report covering recruitment, temporary employment trends, and regular employment trends.

Break at 2:31 PM

Back at 2:47 PM

### **New Business**

**PWSAC 50<sup>th</sup> Anniversary:** Tracey Nuzzi and Tommy Sheridan spoke about the celebration taking place the following day. They offered an open invitation to the board and their family members. Tommy Sheridan read from a letter from Armin F. Koernig which he will present during the celebration.

**2025 Return & Cost Recovery Discussion:** Chairman Johnson opened a discussion on the 2025 return and cost recovery operations.

Discussion: The Board had an in-depth discussion on issues with cost recovery. Some board members offered perspective as cost recovery harvesters. The Board set an expectation for the Committees to seriously consider exploring off-station transfer of pink salmon during release. The Executive Committee will consider establishing an ad hoc Cost Recovery Committee this winter.

Recessed for the day at 3:51 PM

Reconvened on Friday, October 10 at 9:02 AM

### **Day Two Attendance**

Ben Behan	Deana Irish	John Platt
Wade Buscher	Eli Johnson	Ken Roberson
Douglas Carroll	Tyee Lohse	Justin Ryan
Nicholas Crump	Regan Mann	Tommy Sheridan
Reiker Durtschi	Ian McCallum	Don Stevens
Toni Godes	Mike Mickelson	Nathan Tueller
Chris Gordon	Dan Miotke	John Whissel
Jarek Hanak	Tom Nelson	Morgan Williams
Hayley Hoover	Jon Nichols	Shawna Williams

Late: James Burton (9:25 AM), Gus Cotton (9:06 AM), Makena O’Toole (9:15 AM)

Absent: Amanda Bauer, Scott Blake, Bret Bradford, Nathan Cook, Benjamin Daigle, Millie Fox-Hill, Darin Gilman, Forest Jenkins, Morgan Jones, P. Timmy Selanoff

### **Election of Officers and Executive Committee**

Chairman Johnson opened nominations for Board Chairman.

Tyee Lohse nominated **Eli Johnson** for Board Chairman.

Nominations for Board Chairman closed. **ELI JOHNSON** was elected as Board Chairman.

Chairman Johnson opened nominations for Vice Chairman.

Eli Johnson nominated **Tom Nelson** for Vice Chairman.

Nominations for Vice Chairman closed. **TOM NELSON** was elected as Vice Chairman

Chairman Johnson opened nominations for Treasurer.

Eli Johnson nominated **Tyee Lohse** for Treasurer.

Nominations for Treasurer closed. **TYEE LOHSE** was elected as Treasurer.

Chairman Johnson opened nominations for Secretary.

Eli Johnson nominated **Shawna Williams** for Secretary.

Nominations for Treasurer closed. **SHAWNA WILLIAMS** was elected as Secretary.

Chairman Johnson opened nominations for Executive Committee members.

Eli Johnson nominated **Makena O'Toole**.

Eli Johnson nominated **Shawna Williams**.

Eli Johnson nominated **Jon Nichols**.

Eli Johnson nominated **James Burton**.

Eli Johnson nominated **Mike Mickelson**.

Eli Johnson nominated **Nick Crump**.

Eli Johnson nominated **Bret Bradford**.

Eli Johnson nominated **Justin Ryan**.

Election opened. The Board went on break to vote and continued the meeting as the results were tallied.

Break for voting at 9:20 AM

Back at 9:30 AM

### **New Business Continued**

**King Salmon Enhancement:** T. Nuzzi asked the board to allow the Executive Committee to form a workgroup to seriously investigate starting King Salmon enhancement at the Gulkana Hatchery.

Discussion: Gulkana Hatchery previously had a King Salmon enhancement program but ran into issues with the Department of Fish and Game due to competition with wild stocks and fishery management challenges. There is a strong interest in the fleet for PWSAC to release king salmon and the Board expressed interest in investigating a chinook enhancement program. "King Enhancement Committee" was added to the Executive Committee agenda.

**Sam Rabung Scholarship:** T. Sheridan announced the Sam Rabung Scholarship established in honor of Sam Rabung, who had a large influence on PWSAC over the decades. Sheridan shared information on how the Board can donate to the scholarship fund.

**Election of Officers and Executive Committee (Results)**

Chairman Johnson announced the results of the election for Executive Committee members. As per board bylaws, the Board Chairman, Eli Johnson, and the Board Vice Chairman, Tom Nelson, were automatically placed on the Executive Committee. From the election, the following directors were also placed on the Executive Committee: Shawna Williams, Jon Nichols, Nick Crump, Bret Bradford, and Justin Ryan. Mike Mickelson, James Burton, and Makena O’Toole were placed as alternates one, two, and three respectively.

**Next Executive Committee Meeting Date**

November 4, 2025

**Next Full Board Meeting Date**

March 16, 2026

**Board Comments**

J. Whissel announced a scheduled PWSSC Tuesday Talk the following week.  
S. Williams thanked the staff and encouraged the board to attend the committee meetings.  
E. Johnson also thanked staff for putting together the reports and their work over the summer.

**Adjournment**

**MOTION J. WHISSEL; SECOND C. GORDON** move to adjourn.  
MOTION PASSED.

Meeting adjourned at 10:17 AM.

# Highlights from the January 2026 Board of Directors meeting

The Prince William Sound Regional Citizens' Advisory Council held a meeting on January 22 and 23, 2026. The following is a synopsis of actions and discussions that took place at that two-day meeting. This report is not all inclusive.

## Council news

The Board seated a new director to represent the Oil Spill Region Environmental Coalition. Director Bob Shavelson resigned and the Board approved Lois Epstein as the new representative for the remainder of the term, which expires in May 2026.

The Board elected Jim Herbert as the new Secretary on the Council's Executive Committee in place of Shavelson. He will serve until May 2026, when regular elections will be held.

## SERVS' oil spill response program preserved in legislation

The Board heard an update from Joe Lally, the Council's Director of Programs, highlighting a recent success: the preservation of local, contracted fishing vessels in Alyeska Pipeline Service Company's Ship Escort Response Vessel System, or SERVS, oil spill preparedness and response program.

A workgroup that included the Council, industry, and other stakeholders collaborated to develop a solution for a 2023 law that would have excluded many local fishing vessels from participating in SERVS' program. The vessels would have had to pass inspections for tasks that they were not designed for. The workgroup promoted language, included in the FY2026 National Defense Authorization Act (NDAA), that resulted in exemptions from these inspection requirements for qualified vessels engaged in training or responding to oil spills in Alaska.

Lally noted many organizations that participated in the working group in addition to the Council, including: Alyeska Pipeline Service Company, Cook Inlet Regional Citizens Advisory Council, Washington State Maritime Cooperative, Alaska Chadux Network, the American Waterways Operators, Cook Inlet Spill Prevention & Response, Inc (CISPRI), and Southeast Alaska Petroleum Response Organization (SEAPRO).

Lally recognized Suzanne Cunningham of Alyeska for her leadership of the working group, and Alaska's federal delegation, Senators Lisa Murkowski and Dan Sullivan, and Congressman Nick Begich, who helped promote the solution among their Washington, D.C., colleagues. In particular, Congressman Begich who was able to insert the language into the House's version of the bill, leading to its passage in December 2025.

Additional details are available on our website: [www.tinyurl.com/SERVS-vessels](http://www.tinyurl.com/SERVS-vessels)

## Report from Alyeska Pipeline Service Company

Klint VanWingerden, Vice President of Operations and Maintenance for Alyeska, presented on recent events at the Valdez Marine Terminal (VMT) and Alyeska/SERVS.

VanWingerden reported on regular operations, availability numbers for the fishing vessel oil spill response program, and a summary of recent drills and exercises including some equipment

deployments. VanWingerden highlighted the company's safety statistics, which he noted were better than the industry average.

VanWingerden also summarized some major projects. Highlights of these include:

- **Tank 5 inspection:** An internal inspection was completed for crude oil storage tank #5 which included an inspection of branch lines that lead to the tank.
- **PFAS-free fire foam:** Berth 4's firefighting foam system has transitioned to Universal Green, the new PFAS-free foam.
- **Tanker One Plan:** The administration of the Prince William Sound Tanker Oil Discharge Prevention and Contingency Plan has transitioned from the shipping companies to Alyeska, with each of the shipping companies continuing to administer their own state and federal vessel response plans. VanWingerden noted that Alyeska continues to work towards an effort referred to as the Tanker One Plan that is intended to unify, simplify, and streamline the number of plans. This transition is expected to take multiple years to develop and implement and will include a public review process.
- **Workforce reduction review:** VanWingerden reported on a review of positions and roles within the company after the recent reorganization that reduced about 8% of Alyeska's workforce. He noted that a layer of manager positions has been eliminated, with supervisors reporting directly to directors, rather than to a middle layer of managers.

Additional details on many of these items are available in the presentation slides on the Council's website: [www.tinyurl.com/Alyeska-report-Jan-26](http://www.tinyurl.com/Alyeska-report-Jan-26)

## ADEC Commissioner-Designee Randy Bates

Randy Bates, the Alaska Department of Environmental Conservation's (ADEC) Commissioner-Designee, joined the meeting to introduce himself to the Council. Bates summarized his background in commercial fishing and various roles in the Alaska state government over the last 25 years, and updated the Council on recent topics related to the Council's mission, including:

- **Administrative Order 360:** Governor Dunleavy issued an administrative order to all state agencies to reduce regulations by 25% over the next two years. Bates stated that he is focusing on redundant, ineffective, or inactive regulations. He noted that he does not want to reduce protections.
- **Oil Spill Prevention and Response Fund:** Bates noted that the department recently received a significant settlement of \$24 million, which stabilized their prevention and response fund. However, he cautioned that this money is available to the legislature to appropriate to other areas of the state government.

## Tanker-mounted cameras to reduce whale strikes

The Board heard a presentation from representatives of WhaleSpotter on vessel-mounted thermal imaging cameras, which can identify whales at a distance and alert mariners if the whales are in the vessel's path to help mitigate or reduce vessel strikes. The Council's Port Operations and Vessel Traffic Systems Committee is hoping to conduct a pilot test of the equipment later this year. WhaleSpotter's presentation is available on the Council's YouTube channel: [www.tinyurl.com/WhaleSpotter-Video](http://www.tinyurl.com/WhaleSpotter-Video)

## Testing methods for liners in secondary containment

The Board heard an update from Council staff on testing methods to evaluate the integrity of the asphalt liners surrounding the vast crude oil storage tanks at the VMT.

The asphalt liners are part of a secondary containment system that is intended to contain crude oil in the case of a spill. These liners are covered by several feet of gravel fill, so they are difficult to inspect. The Council is concerned about the nearly 50-year-old liners because cracks and damage have been discovered in some areas when the liner was exposed.

Alyeska receives a 60% “prevention credit” from ADEC based on the integrity of these liners. This credit allows Alyeska to plan for a smaller spill, thus reducing the amount of equipment and responders required to be on hand to respond. The credit is contingent upon the asphalt liner meeting ADEC’s “sufficiently impermeable” standard. This means the system must be able to contain spilled oil long enough to allow cleanup to be completed before groundwater is contaminated.

In 2022, ADEC notified Alyeska that they must determine a method to test the integrity of the liners. Alyeska originally proposed using electrical leak location (or electric currents) to locate any leaks, however recently Alyeska revised the proposal to a hydro-test, which would measure the amount of water that leaks through the liner. The amount of leakage that would be deemed acceptable to pass the test has yet to be determined.

## Illustrated book about Prince William Sound’s oil spill prevention and response system

The Board heard a presentation on outreach materials developed for the Council by author and artist Tom Crestodina. Crestodina was contracted by the Council to produce an illustrated book about the oil spill prevention and response system in Prince William Sound. Crestodina is an Alaska fisherman, based in Bellingham, WA, who is known for his illustrations of marine vessels and wildlife. He previously published “Working Boats: An Inside Look at Ten Amazing Watercraft” ([thescow.bigcartel.com](http://thescow.bigcartel.com)).

The new book will be published later this year. A draft version is available for a sneak preview in the Board meeting materials: [www.tinyurl.com/Crestodina-approval](http://www.tinyurl.com/Crestodina-approval)

## Reports accepted: Long-Term Environmental Monitoring Program

The Council accepted the 2025 Summary Report and Technical Supplement for the Council’s Long-Term Environmental Monitoring Program (LTEMP) by Dr. Morgan Powers of Fjord & Fish Sciences, both dated December 2025. The report and technical supplement provide data and results from the 2025 sampling excursions in Port Valdez for LTEMP, now in its 32<sup>nd</sup> year.

LTEMP results are used to assess the environmental impacts of the Valdez Marine Terminal and the crude oil tankers operating in Prince William Sound, including indicators of long-term health of the marine ecosystem since the Exxon Valdez oil spill.

Dr. Powers also included a summary of her recent LTEMP outreach efforts, including posters, presentations at various conferences, and plans to draft a peer-reviewed scientific manuscript. The report and supplement are available on the Council’s website: [www.tinyurl.com/LTEMP-2025](http://www.tinyurl.com/LTEMP-2025)

Dr. Power’s slides are available on the Council’s website: [www.tinyurl.com/LTEMP-2025-slides](http://www.tinyurl.com/LTEMP-2025-slides)

## Annual Report on Community Outreach

The Board heard an update from Maia Draper-Reich, outreach coordinator for the Council, on the Council's outreach efforts since May 2025.

Draper-Reich reported on the activities including conferences where the Council hosted its information booth; a variety of events such as the Council's annual Science Night; presentations on the history of the Exxon Valdez oil spill and the Council; projects and classroom presentations which engaged students of various ages throughout the Council's region; updates to the searchable database of Alaska oil spill lesson plans (available online at: [www.pwsrcac.org/lessons](http://www.pwsrcac.org/lessons)); and other outreach activities and presentations by the Council's staff, volunteers, and interns. For more information about the Council's outreach programs, please contact Maia Draper-Reich: [maia.draper-reich@pwsrcac.org](mailto:maia.draper-reich@pwsrcac.org).

## Adoption of updated Long Range Plan

The Board approved the updated PWSRCAC Long Range Plan for FY2027-2031. This document, updated annually, is a framework for the Council's work plans and guidance for staff when developing project budgets. Download the plan: [www.tinyurl.com/LRP-FY2026](http://www.tinyurl.com/LRP-FY2026)

## Project updates

Updates on all current projects: [www.tinyurl.com/Jan2026-projects](http://www.tinyurl.com/Jan2026-projects)

## Questions? More information?

Any questions or requests for additional information can be directed to:

Amanda Johnson: [amanda.johnson@pwsrcac.org](mailto:amanda.johnson@pwsrcac.org) or Jennifer Fleming: [fleming@pwsrcac.org](mailto:fleming@pwsrcac.org)

Board meetings are routinely recorded. Excerpts of the audio and/or video of agenda items can be made available upon request.

### About the Prince William Sound Regional Citizens' Advisory Council

*Citizens promoting the environmentally safe operation of the Alyeska terminal and associated tankers.*

Mandated by Congress, the Council was established to provide a voice for local citizens in decisions that put their livelihoods and communities at risk. Communities and interest groups from Prince William Sound to Kodiak Island to lower Cook Inlet are represented to promote partnership, build trust, and provide oversight of the operations and maintenance practices which may affect the environment.

**Additional resources:** The Council regularly retains experts to conduct independent research on oil transportation safety and the environmental impacts of the Valdez Marine Terminal and tankers. In addition to the reports referenced in this document, many more resources are available on our website, [www.tinyurl.com/PWSRCAC-resources](http://www.tinyurl.com/PWSRCAC-resources)

# Prince William Sound Aquaculture Corporation

Committee Motion Summary  
October 2025 – March 2026

---

## **Executive Committee**

### November 04, 2026 – Regular Meeting

**MOTION T. NELSON; SECOND S. WILLIAMS** move to approve the Committee assignments as presented.

Amendments: The Committee reviewed the changes made to the assignment list.  
MOTION PASSED with unanimous consent as amended.

### December 04, 2026 – Regular Meeting

No motions besides approval of minutes and agenda, going into executive session, and adjournment.

### January 16, 2026 – Regular Meeting

No motions besides approval of minutes and agenda, going into executive session, and adjournment.

### February 13, 2026 – Regular Meeting

**MOTION J. RYAN; SECOND T. NELSON** move to approve the off-station transport of 18% of the pink salmon from Wally Noerenberg Hatchery to East Perry Island.  
MOTION PASSED with unanimous consent.

---

## **Finance Committee**

### January 13 & 14, 2026 – Regular Meeting

No motions besides approval of agenda and adjournment.

### February 10 & 11, 2026 – Regular Meeting

**MOTION E. JOHNSON; SECOND J. RYAN** move to recommend a fiscal year 27 expenditure budget of \$22,499,581 which includes \$16,106,553 cost of operations, \$1,399,028 debt payment, and a \$4,994,000 capital budget of which \$ 4,015,000 will be loan funded.

MOTION PASSED with unanimous consent.

**MOTION E. JOHNSON; SECOND J. RYAN** move to recommend a fiscal year 27 revenue budget of \$22,499,581 which includes a cost recovery plan of \$9,175,667 from pink salmon, \$5,310,737 from chum salmon, and \$1,500,000 from sockeye salmon for a combined \$6,810,737 for chum and sockeye salmon in aggregate.

MOTION PASSED with unanimous consent.

## Production Planning Committee

January 15, 2026 – Regular Meeting

**MOTION E. JOHNSON; SECOND J. HANAK** move to recommend to the Executive Committee to explore an off-station release for the portion of pinks at Wally Noerenberg Hatchery that are differentially marked.

MOTION PASSED with unanimous consent.

**MOTION E. JOHNSON; SECOND J. HANAK** move to recommend to the Executive Committee to move the 500,000 for the coho brood program from WNH to MBH.

MOTION PASSED with unanimous consent.

---

## Board Development Committee

January 15, 2026 – Regular Meeting

No motions besides approval of agenda and adjournment.

---

## Cost Recovery Committee

February 12, 2026 – Regular Meeting

**MOTION J. NICHOLS; SECOND T. NELSON** move to add the triggers to the Cost Recovery guidelines as presented.

MOTION PASSED with unanimous consent.

For the record, the triggers as presented:

“2025 Cost recovery triggers:

Price Trigger – If licensing agreement final bids are at or below the revenue goal assumptions for any species, the Executive Committee has the option to apply up to \$1 million from the capital fund for that species revenue goal with a majority vote. The Chum & Sockeye goal is managed in aggregate and only up to a total of \$1 million may be used between them.

Run Trigger – If PWSAC is within \$1 million of completing a cost recovery species goal AND the GM determines an unacceptable point of diminishing returns AND the processor with the current licensing agreement for that species agrees in writing to terminate the agreement, then the Executive Committee has the option to apply up to \$1 million from the capital fund for that species revenue goal with a majority vote. The Chum & Sockeye goal is managed in aggregate and only up to a total of \$1 million may be used between them.

The intent of this flexibility is to use up to but no more than \$1 million of the Capital Fund on each Price and Run Trigger. It is assumed that PWSAC will do everything reasonably possible to achieve its cost recovery goals in season and not take the use of each trigger lightly as use of the capital fund may limit the flexibility in future seasons. The intent for the board to authorize the Executive Committee to use these triggers is not to bypass the revenue goal but the potential trigger use is part of achieving the revenue goal. The goal is for the expected CR & Brood % harvest to be below 60% for pink salmon, 50% for chum salmon and 30% for sockeye salmon.”
